Summary

Computer & Systems Engineering student passionate about Flutter development with hands-on experience building cross-platform mobile applications using Flutter, Firebase, RESTful APIs, PHP, and MySQL. Strong foundation in Object-Oriented Programming (OOP), software engineering, problem solving, teamwork, communication, adaptability, and continuous learning. Seeking a Flutter Internship or Junior Flutter Developer role.

Technical Skills

Programming Languages: Dart, Java, C++

Frameworks: Flutter

State Management: Provider, Cubit, BLoC

Backend: RESTful APIs, PHP, JSON

Databases: Firebase Authentication, Cloud Firestore, SQLite, MySQL

Tools: Git, GitHub, Android Studio, VS Code

Concepts: OOP, MVVM, Clean Architecture, CRUD, Authentication, API Integration, Responsive UI, Clean Code, Software Engineering

Projects

Note App | Flutter, PHP, MySQL

- Developed a full-stack note management application using Flutter, PHP REST APIs and MySQL.
- Implemented secure authentication and complete CRUD operations.
- Integrated REST APIs and local session persistence using SharedPreferences.
- Applied responsive UI principles and form validation.

Tech Stack: Flutter, Dart, PHP, REST API, MySQL, SharedPreferences

Money Mate | Flutter

- Worked within a collaborative development team to build a secure bill management application.
- Developed responsive Flutter screens for authentication, bills, payments, search and filtering.
- Integrated REST APIs with JWT-based authentication.
- Improved application flow, navigation and user experience.

Tech Stack: Flutter, REST API, JWT, Provider, Git

E-Commerce Mobile App | Flutter & Firebase

- Developed a mobile shopping application with authentication, cart, wishlist and order management.
- Integrated Firebase Authentication and Cloud Firestore.
- Built product search, filtering and real-time updates using Firestore Streams.
- Implemented structured navigation and responsive UI.

Tech Stack: Flutter, Firebase Authentication, Cloud Firestore, Provider

Experience & Training

Flutter Development Trainee

ITI Summer Training

2025

- Completed intensive Flutter training covering Dart, widgets, navigation, state management and application architecture.
- Built multiple practice mobile applications and collaborated during practical sessions.

Education

Bachelor of Computer & Systems Engineering

Zagazig University

Expected Graduation: 2028

Certificates

- MaharaTech – C Programming From Basics to Mastery (2025)
- MaharaTech – Mastering Object-Oriented Programming (OOP) using C++ (2025)
